

“An Intergenerational Panel Discussion with Women Pioneers of DRR: Diversity and Risk Governance”

Ms. Mio Kamitani
Secretary-General
Otsuchi Yume-Hiroba

Dr. Lucy Jones
Science Advisor/Seismologist
US Geological Survey

Dr. Hiroko Hara
Professor/Vice-President
Josai Kokusai Daigaku/JWNDRR

What are the conditions of resilient societies? What constitutes effective risk governance? How do diverse populations challenge our assumptions about what constitutes inclusive decision-making for disaster risk reduction? What institutional processes are necessary to ensure responsive DRR strategies and public policies that accurately foresee and then meet the needs of a broad spectrum of diverse communities, households, families and individuals?
